

Carlisle United Mental Health Policy

Introduction

The Club regards good health & safety practice as a vital part of its business. It is therefore the Club's policy for management and employees to do all that is reasonably practicable to attain the highest level..

Our aim is to prevent injury and protect from any foreseeable harm all players and staff, at the Club (including Academy) The Club is committed to continual improvement in health & safety performance, in line with our overall Club H&S policy.

Carlisle United is also committed safeguarding and promoting the welfare of all staff and players, this includes mental health. We expect all directors, players, staff, volunteers, parents/carers, young players, any partner agencies or any commissioned service providers to share this commitment.

Mental health

We all have mental health and we need to look after it just as we would our physical health. Yet every year, 1 in 4 of us will experience a mental health problem. That's hundreds of football players and staff, and thousands of football fans. MIND is working in partnership with the EFL, to raise awareness of mental health, to improve the approach to mental health in football, and to raise funds to deliver life-changing support. We support that initiative.

Please refer to information on that website.

The Club and MIND can act as signposts and provide support and it is intended that they will help people who work or participate in football, to gain a better understanding of those who are or might experience, mental health problems.

If you have any concerns please contact the Club's Designated Safeguarding Officer Scott Taylor who is qualified Mental Health First Aider (MHFA) for both adults and children.
